

Sefton LMC : GPs Collective Action survey

GPC Options for collective action:

GP Contract Dispute 24/25 : GPC Options for Action –

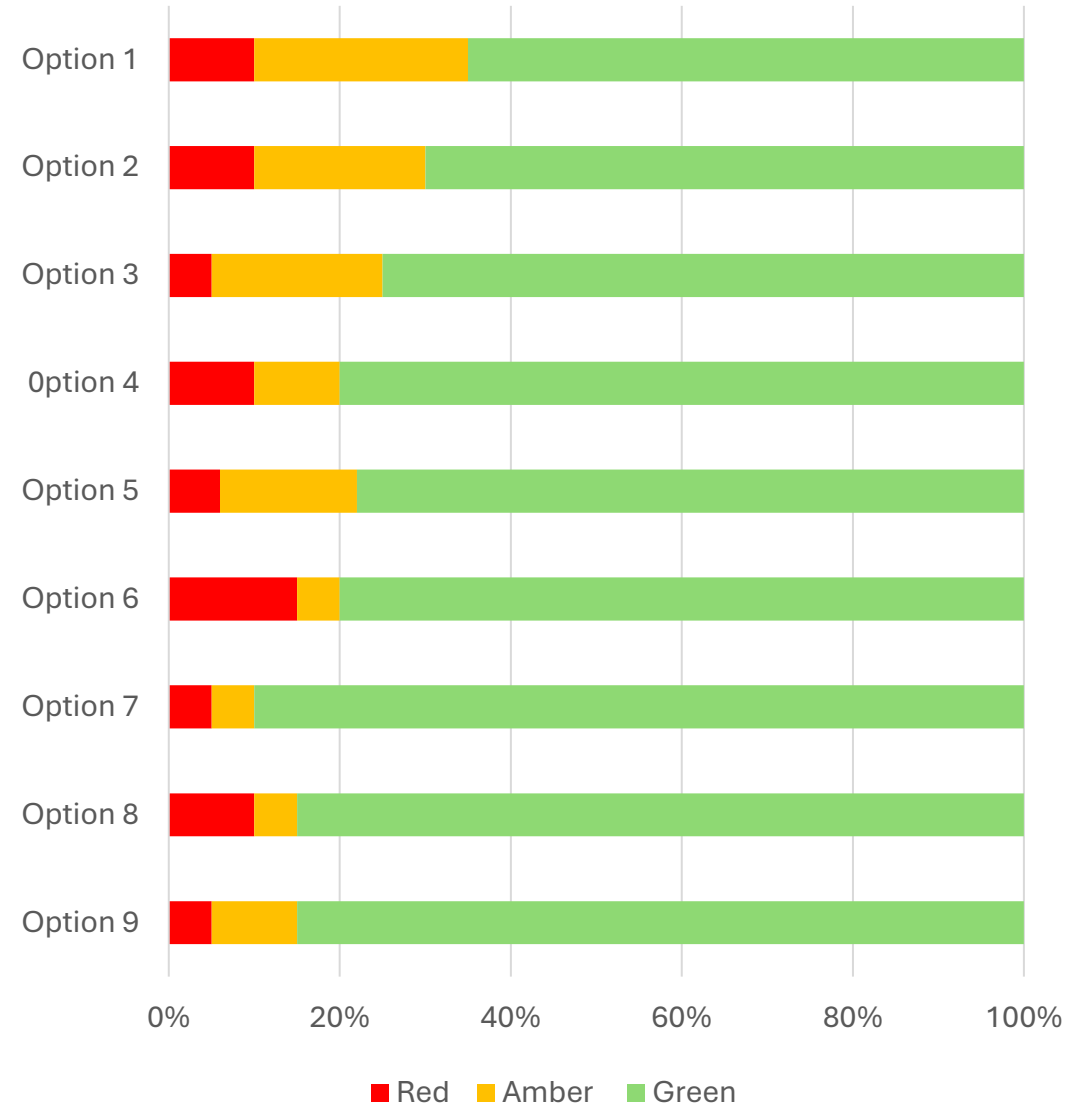

1. **Adopt BMA Safe Working Guidance:** Limit daily patient consultations to the UEMO-recommended safe maximum of 25 patients per clinician, per day. Offer face-to-face consultations primarily and divert patients to local urgent care settings once capacity is reached.
2. **Discontinue e-Referral Advice & Guidance Pathway:** Cease engagement unless it is timely and clinically beneficial.
3. **Prioritize Your Business and Staff:** Withdraw from any voluntary services that compensate for local commissioning gaps.
4. **Refer Appropriately:** Do not ration referrals, investigations, and admissions. Refer patients for specialist care when clinically appropriate, using professional letters where preferable.
5. **Defer Signing Declarations:** Delay signing declarations for "better digital telephony" and "simpler online requests" until further GPC England guidance in early 2025.
6. **Switch Off GP Connect Functionality:** Prevent third-party providers from entering codes into GP clinical records.
7. **Restrict Data Sharing Agreements:** Only agree to data sharing that supports direct patient care.
8. **Disable Medicines Optimisation Software:** Turn off software embedded by the local ICB aimed at financial savings rather than clinical benefit.
9. **Refuse Participation in New Local Enhanced Services:** Do not engage in new LES commissioned by the ICB.
